Bringing the vibrant world of the twelfth century to life, this book also explores Saladin's complicated legacy, examining the ways Saladin has been invoked in the modern age by Arab and Muslim leaders ranging from Nasser in Egypt, Asad in Syria, and Saddam Hussein in Iraq to Osama bin Laden, as well as his huge appeal across popular culture in books, drama, and music.

**Invention** James Dyson, 2021-09-02 Dyson has become a byword for high performing products, technology design, and invention. Now James Dyson, the inventor and entrepreneur who made it all happen, tells his remarkable and inspirational story in *Invention: A Life*. Famously, over a four year period, James Dyson made 5127 prototypes of the cyclonic vacuum cleaner that would transform the way houses are cleaned around the world. In devoting all his resources to iteratively developing the technology, he risked it all, but out of many failures and setbacks came hard fought success. His products, including vacuum cleaners, hair dryers, and hair stylers and fans, and purifiers, are not only revolutionary technologies but design classics. This was a legacy of his time studying at the Royal College of Art in the 1960s when he was inspired by some of the most famous artists, designers, and inventors of the era, as well as his engineering heroes such as Frank Whittle and Alec Issigonis. In *Invention: A Life*, Dyson reveals how he came to set up his own company and led it to become one of the most inventive technology companies in the world. It is a compelling and dramatic tale with many obstacles overcome. Dyson has always looked to the future, even setting up his own university to help provide the next generation of engineers and designers. For, as he says, everything changes all the time, so experience is of little use. Whether you are someone who has an idea for a better product, an aspiring entrepreneur, whether you appreciate great design, or a page turning read, *Invention: A Life* offers you inspiration, hope, and much more.
